MEMORANDUM FOR THE RECORD

SUBJECT: Program Call FY 1979 LSD (Line Item) Computer Terminal Installation

1. LSD program call for FY 1979 includes a line item for computer terminal installation in connection with project SAFE. The undersigned in previous conversations with O/Compt personnel had been advised that all budgetary projections and funding for project SAFE was to be processed by the DDI.

2. Because of this understanding I called [ ] (22 March 1977) and stated that a line item had been included in the LSD program call FY 1979 that was for project SAFE. [ ] stated that this was not his understanding of project SAFE budgeting and funding and that I should call DDI/B&F and get the matter resolved.

3. I called [ ] and posed the same question. He was unable to give me an immediate answer but said he would look into the question and call back. [ ] after consultation with Mr. Harry Eisenbeiss called and stated that the computer technical installation should be included in the DDI budget and not the OL/LSD budget. This information was passed to LSD and RECD.
